

ASIAN GINGER CHICKEN NOODLE SOUP

YIELD: *2.5 L broth plus 4 portions*

October 1, 2026 · Version 3 · Soup

Clear fortified chicken broth with noodles, vegetables, and fresh herbs. Four additional whole chicken wings enrich the stock’s body and are discarded after extraction.

PREPARATION

Scaling basis: Whole chicken · 1000 g

INGREDIENT	QUANTITY	SCALING	PROCEDURE
PHASE A — EXTRACT STOCK			
<u>Whole chicken</u> Use chicken leg quarters for the stock and shredded meat.	1000 g	100.00%	1. Combine the chicken, the 4 additional wings, and water. 2. Bring slowly to 85–90 C and skim for 20 min. 3. Add the aromatics and salt, then simmer gently for 90 min. Keep a low simmer with only a few bubbles breaking the surface to preserve stock clarity; avoid a rolling boil. 4. Remove the chicken used for shredded meat, shred it, discard the stock wings, and strain the broth.
<u>Chicken wings</u> Use 4 additional whole wings per 1000 g chicken; add at the start for stock extraction, then discard.	As needed	—	
<u>Water</u> Form the broth.	2500 g	250.00%	
<u>Fresh ginger</u> Smash for the stock.	40 g	4.00%	
<u>Spring onion</u> Bruise for the stock.	60 g	6.00%	
<u>Onion</u> Halve for the stock.	150 g	15.00%	
<u>Black pepper</u> Season the stock.	3 g	0.30%	
<u>Salt</u> Season the stock.	12 g	1.20%	

The wing quantity is specified by count. The reported trial used 4 unweighed wings, estimated retrospectively at 200–300 g total; this is not a measured mass or a numeric scaling basis.

PRINCIPLES

- Aromatic infusion — Slow extraction carries aromatic flavour into the broth.

PHASE B — FORTIFY BROTH

<u>Garlic</u> Smash into the broth.	15 g	1.50%	5. Return the strained broth to a gentle simmer with the aromatics and makrut lime leaves for 15–20 min, remove them, and adjust with light soy sauce and/or fish sauce.
<u>Fresh ginger</u> Slice into the broth.	20 g	2.00%	
<u>Lemongrass</u> Bruise into the broth.	25 g	2.50%	
<u>Makrut lime leaves</u> Add aromatic citrus notes.	1 g	0.10%	
<u>Light soy sauce</u> Add optional seasoning.	15 g	1.50%	
<u>Fish sauce</u> Add optional seasoning.	10 g	1.00%	

PHASE C — PREPARE BOWL COMPONENTS

<u>Rice vermicelli</u> Soak and drain for the bowls.	200 g	20.00%	6. Soak and drain the noodles, simmer the shiitake for 5 min, blanch the bok choy for 1–2 min, then build bowls with noodles, shredded chicken, vegetables, raw sprouts, boiling broth, herbs, sesame oil, and lime juice.
<u>Shiitake mushrooms</u> Simmer in broth.	150 g	15.00%	
<u>Bok choy</u> Blanch in broth.	300 g	30.00%	
<u>Bean sprouts</u> Keep raw for the bowls.	200 g	20.00%	
<u>Fresh coriander</u> Finish the bowls.	25 g	2.50%	

<u>Thai basil</u>	15 g	1.50%
Finish the bowls.		
<u>Mint</u>	5 g	0.50%
Add optional fresh finish.		
<u>Sesame oil</u>	5 g	0.50%
Finish the bowls.		
<u>Lime juice</u>	As needed	—
Brighten at service.		

PRINCIPLES

- Fresh herb contrast — Add herbs at service to preserve their volatile freshness.

FAILURE MODES

Symptom	Likely cause	Corrective action
Cloudy, heavy broth	The broth boiled hard.	Keep the stock at 85–90 C with only a few bubbles breaking the surface; avoid a rolling boil.
Limp bok choy	It was blanched too long.	Blanch for only 1–2 min.
